Ho Chi Minh City

## About Me

I had the opportunity to intern at Bytotech, where I worked on Zalo Mini Apps projects for product management. These projects utilized ReactJS and the Zalo Mini App (ZMA) library for state management and API integration.

## Skills

Website Development: HTML, CSS, JavaScript, TypeScript, C#  
Library: RecoilJS, Bootstrap4, TailwindCSS, ElementUI, ZaloMiniApp  
Others: Github, Gitlab, Trello

## Work Experience

Front-End Developer Intern  
BYTE TECHNOLOGY JSC

01/2024 - 06/2024

### Tuborg Open 2 More

05/2024 - 06/2024

**Description:** This app lets users scan QR codes on product labels to win prizes. By scanning, they can spin a virtual wheel and win rewards.  
**Utilized technologies:** Zalo Mini App SDK, React, Tailwind CSS, Recoil, TypeScript  
**Github:** <https://github.com/dinther-al/tuborg-promotion>

### Pango1Touch

02/2024 - 03/2024

**Description:** This app lets users make purchases with one touch. It saves store information when users fill out a form.  
**Utilized technologies:** Zalo Mini App SDK, React, Tailwind CSS  
**Github:** <https://github.com/dinther-al/pango-1touch>

### PangoSell

01/2024 - 02/2024

**Description:** The application allows users to make purchases through a Zalo Mini App.  
**Utilized technologies:** Zalo Mini App SDK, React, Tailwind CSS  
**Github:** <https://github.com/dinther-al/pango-sell>

## Education

Van Lang University  
Major: Information Technology

## Language

English

## Hobbies

Traditional martial arts, volunteering,...
