CAREER GOALS

"Seeking career development opportunities in the field of Frontend development, utilizing skills in HTML, CSS, JavaScript, and frameworks like React.js to build creative web applications, optimize user experience, and contribute to the success of the development team."
"I aim to further develop my Frontend programming skills in a professional environment, where I can learn and apply knowledge of new technologies such as React, Vue.js, and Angular to create optimized and user-friendly web products."

WORK EXPERIENCE

TON GAMING

-

PHASER GAME PROGRAMMING

1 year experience
Participated in 5 projects, contributing to frontend development using ReactJS and Phaser, while integrating APIs for real-time data.

PROJECT

TapKing

07-2024 - 12/2024

- FRONEND

PHASERJS , REACTJS

User Interface (UI) Development:
Build interface components based on design specifications.
Ensure a smooth and user-friendly experience (UX).
Optimize Interface Performance:
Ensure fast and efficient loading across different devices.
Test and fix issues related to browsers or devices.
Integration with Backend:
Communicate with APIs to display data from the server.
Ensure the interface aligns with the features provided by the backend.
Developed a cryptocurrency trading platform using ReactJS, implementing features such as asset listing, real-time price charts, and trade execution.
 Tester:
Test the game to identify bugs and improve the experience.
Provide feedback to enhance game quality and stability.

EDUCATION

2021 - 2024

frontend programming

FPT University

SKILLS

web programming

HTML5
CSS3, TaiwinCss , bootstrap5

JavaScript ,
ReactJs ,VueJs ,TypeScript

SOFT SKILLS

Teamwork & Collaboration: Collaborated closely with the frontend development team to implement and maintain effective CI/CD pipelines for web applications.
Worked with backend teams to ensure seamless integration between frontend and backend services in a production environment.
Communication Skills:
Communicated clearly and effectively with development teams to explain deployment processes, environment requirements, and tools supporting the frontend
