OBJECTIVE

Frontend Developer with 7 years of expertise in building scalable banking, edtech, and SaaS applications, open to full-time frontend engineering positions.

EXPERIENCE

Frontend developer   Dec 2024 - Present (1 year)
Untitled Bank   *Tashkent, Uzbekistan*

- Built the loan origination process from scratch, enabling the company to launch a new digital product line and reducing onboarding time for customers.
- Designed and developed a custom CRM system, improving operational efficiency and reducing manual work for sales and support teams.
- Created and maintained a UI Kit, ensuring product consistency across multiple platforms and accelerating development speed for the engineering team.
- Developed a Telegram Mini App to support the origination process, increasing customer engagement and making services more accessible.

Senior frontend developer   April 2024 - Dec 2024 (1 year)
Calendaria   *Almaty, Kazakhstan*

- Developed a project management application, delivering features that improved task tracking and team collaboration.
- Participated in code reviews, ensuring code quality, maintainability, and knowledge sharing across the team.
- Contributed to the frontend architecture design, defining scalable solutions and best practices for long-term product growth.
- Delivered internal tech talks, fostering team learning and sharing expertise on frontend development practices.

Head of frontend team   August 2018 - April 2024 (5 years)
LMP Project Group   *Moscow, Russia*

- Led a frontend development team, managing delivery processes and mentoring engineers to improve overall productivity and code quality.
- Designed and developed a Business Intelligence (BI) application for data analysis, helping enterprise clients make informed decisions.
- Defined and implemented the frontend architecture, ensuring scalability, maintainability, and performance of the application.
- Conducted regular code reviews, establishing best practices and reducing technical debt across the codebase.
- Drove the implementation of project management systems for large enterprises, streamlining workflows and increasing efficiency.

EXTRA WORK EXPERIENCE

Technical Writer   Jun 2024 - Sep 2024
Edutoria   *Moscow, Russia*

- Created and authored educational content on HTML, CSS, JavaScript, and modern frontend frameworks, helping beginners build strong foundations.
- Designed structured lessons and practical assignments on topics such as layout, responsive design, Flexbox, and UI component development.

- Wrote comprehensive guides and tutorials with a focus on clarity, accessibility, and practical application.
- Collaborated with educational platforms to deliver courses and workshops, reaching hundreds of students.

Mentor - team lead in graduate teams　　　　　　　　　　　　　　　　Jun 2023 - Present
Practicum　　　　　　　　　　　　　　　　　　　　　　　　　　　　　　*Moscow, Russia*

- Managed teams of graduates working on real-world projects, guiding them through the full development cycle.
- Provided technical leadership and code reviews, ensuring high-quality, production-ready solutions.
- Helped teams adopt best practices in frontend development, architecture design, and agile workflows.
- Facilitated collaboration between graduates and real clients, bridging the gap between education and industry needs.

Developer tutor　　　　　　　　　　　　　　　　　　　　　　　　　Dec 2022 - Present
HTML Academy　　　　　　　　　　　　　　　　　　　　　　*Saint Petersburg, Russia*

- Delivered live lessons and workshops on core frontend topics (HTML, CSS, JavaScript), helping students build strong technical foundations.
- Conducted code reviews of homework assignments, providing detailed feedback and actionable improvement suggestions.
- Answered students' questions and offered individual mentorship, ensuring effective understanding of concepts and hands-on skills.
- Supported learners in their career growth, preparing them for real-world frontend development challenges.

SKILLS

Technical Skills

- React, Next.js, TypeScript, JavaScript (ES6+), Node.js, NestJS.
- GraphQL, REST API, WebSockets.
- HTML5, CSS3, Sass, responsive and adaptive design.
- Testing (Jest, React Testing Library, Playwright).
- Git, CI/CD, Docker, project management tools (Jira, Trello).

Soft Skills

- Team leadership and mentorship.
- Code review and knowledge sharing.
- Strong communication and presentation skills (internal tech talks).
- Problem-solving and analytical thinking.
- Collaboration with cross-functional teams (designers, backend, product managers).
- Adaptability and quick learning in fast-paced environments.

EDUCATION

Bachelor of Computer Science, MGSU University　　　　　　　　　　　　　　2015 - 2019

PROJECTS

Business Intelligence (BI) application for data analysis Built a tool to analyze data and create reports without special knowledge or lengthy training. [(Try it here)](#)
